

CONTROL BOX OF SUNZUANT Q.M.C.S.

操作控制箱為本快速換模系統狀態顯示，與功能操作介面，上半部（1~10）為顯示與自動操作功能，下半部（11~17）為手動操作功能按鍵。

The control panel offers an interface to monitor and control operations of the quick mold change system.

The upper half of the screen (lines 1~10) displays automatic functions while the lower half (lines 11~17) is used for operator-controlled functions.
